### PROFILE

I'm a Full Stack Developer with a very strong foundation in front-end development. Proficient in creating dynamic web applications using technologies like JavaScript, React, Node.js, and MySQL. I'm passionate about building efficient, scalable, and user-friendly solutions for businesses. Willing to start contributing to a collaborative team and tackle complex coding challenges.

### WORK EXPERIENCE

#### Freelance Developer

Remote August 2023 - Present

- Collaborated with diverse clients, focusing on small businesses, to develop custom websites tailored to their specific needs and business goals.
- Designed and developed responsive, user-friendly websites using HTML, CSS, JavaScript, and frameworks like React.js and Vue.js, ensuring smooth and engaging user experiences.
- Built dynamic and interactive features such as search functionality, product filters, and real-time data updates, improving usability and customer engagement.
- Implemented headless CMS to manage and deliver dynamic content, allowing the client to easily update and manage website content without direct developer intervention.

#### Team Manager

Searock Grill, -Sydney, Australia 2022 - 2024

- Supervised a team of 15+ staff, ensuring efficient daily operations and resolving conflicts in a fast-paced environment.
- Managed unexpected challenges such as staffing issues, customer complaints, and supply chain disruptions, quickly finding solutions to maintain service quality.
- Engaged directly with customers to ensure high satisfaction, effectively communicating to resolve issues and improve service. Coordinated with suppliers, ensuring timely deliveries and cost control.
